

Dr. Mike
KATZ
U.S. SENATE

— ENDORSEMENT FROM —
FORMER U.S. ATTORNEY & DELAWARE GOP CHAIRMAN
JULIANNE MURRAY

Delaware is at a turning point.

For too long, our state has been represented in Washington by Chris Coons—a career politician who has had every opportunity to put Delaware first, yet too often aligns himself with a national agenda that doesn't reflect the real concerns of Delaware families. Washington may be working for him, but it is not working for the people here at home.

That's why I am proud to endorse Dr. Mike Katz for United States Senate.

Now, let's address something head-on: Dr. Katz was once a Democrat. Some will try to use that against him. I see it differently.

So was **Ronald Reagan**.

So was **Donald Trump**.

So was **Tulsi Gabbard**.

Across this country, strong leaders have stepped away from a party that no longer represents them—and more importantly, no longer represents the people. That's not a weakness. That's conviction.

Dr. Katz made that same choice because he saw what many Delawareans are seeing: the priorities coming out of Washington are disconnected from everyday life here at home. Rising costs, public safety concerns, and a lack of accountability are not partisan issues—they are real issues.

This race is not about party labels. It's about who is best prepared to take on Chris Coons and finally give Delaware a voice that puts our state first. Too often we dismiss a candidate for not "being conservative enough" and don't acknowledge the hard truth of electability in Delaware. We need to put our endorsement behind the candidate that has real solutions and a chance of breaking the Democrat stronghold.

Dr. Mike Katz is that candidate.

He brings a real-world perspective as a physician, a problem-solver who understands people, not politics. He's not looking to climb a ladder in Washington—he's stepping forward to serve.

I've seen firsthand how political systems can become more focused on control than results. Delaware deserves better than that. We deserve leadership that is independent, principled, and grounded in the needs of our communities—not the demands of a national party structure.

This election is an opportunity.

-  An opportunity to reset.
-  An opportunity to be heard.
-  An opportunity to send someone to Washington who will fight for Delaware—not for headlines, not for party approval, but for results.

I am proud to stand with Dr. Mike Katz because I believe he represents something bigger than a campaign.

He represents a path forward.

And I believe Delaware is ready.

Julianne
