

Dr. Mike Katz for U.S. Senate — Republican Nominee, Delaware 2026

This is the communications reference version of the platform. The full platform at drmikekatz.com/platform carries the deeper argument, evidence, and specific legislation he will support or oppose.

Guiding Principles

Every piece of legislation is judged by the same standards. Dr. Katz will ask:

1. Does it protect earned benefits and constitutional rights?
2. Does it improve healthcare, quality of life, and economic opportunity for Delaware families?
3. Does it strengthen national security and America's leadership abroad?
4. Is it fiscally responsible?
5. Does it improve government accountability, transparency, and performance?

If legislation advances these goals, Dr. Katz will build bipartisan support to deliver results.

The Platform – Eleven Planks

1. Economy & Cost of Living

Reining in inflation and restoring fiscal discipline.

- Halt wasteful federal spending.
- Cut red tape for small businesses.
- Lower energy and housing costs for Delaware families.
- Oppose new taxes on working families.
- Protect seniors on fixed incomes from having their savings eroded by inflation.

2. Healthcare

Common Ground — no family's health depends on their zip code.

- Lower prescription drug costs while protecting the U.S. innovation pipeline.
- Fund rural care in Kent and Sussex counties.
- Push back on some of the region's highest health insurance premiums.
- Shift federal incentives from treating illness to preventing it.

3. Protecting Delaware Jobs and Keeping Business Here

Reversing regulatory flight and restoring our competitive edge.

- Lock in pro-growth federal taxes.
- Cut the red tape choking small business.
- Bring critical manufacturing home — semiconductors, pharmaceuticals, defense.
- Oppose federal changes that push Delaware employers to other states.

4. Education

Every child's future is determined by their potential, not their address.

- Expand early childhood investment.
- Align curricula with modern workforce needs.
- Close the zip-code gap in outcomes across all three counties.

5. Military, Veterans & National Security

Keep America's promise to those who defend our freedom.

- Rebuild American military strength; modernize forces; strengthen recruiting and retention.
- Cut VA red tape so veterans spend less time fighting bureaucracy for earned benefits.
- Strengthen cybersecurity and missile defense.
- Stand with allies and up to adversaries.

6. Law & Order, Constitution, and Police

Restoring the rule of law and protecting our constitutional order.

- Back the blue with funding, training, and legal protections for law enforcement.
- Defend the Constitution and the Bill of Rights.
- Restore real consequences for lawlessness in our communities.

7. Ending the Weaponization of Government

Restoring accountability, blind justice, and institutional integrity.

- Dismantle two-tiered justice — one law applied equally.
- Stop federal censorship and speech policing.
- Rein in the regulatory state and its unelected rulemakers.

8. Border Security & National Sovereignty

Stop the bleeding, stabilize the crisis, and enforce the law.

- Complete the southern border wall.
- Reinstate proven enforcement (Remain in Mexico).
- Interdict fentanyl.
- Designate cartels as Foreign Terrorist Organizations.
- Zero interior tolerance for illegal employment schemes that exploit American workers.

9. Voter Integrity

Securing the ballot with zero margin for error.

- Pass the SAVE Act (proof of citizenship to register).
- Audit voter rolls regularly across all fifty states.
- Verify every ballot is cast by an eligible citizen.

10. Defending the Second Amendment

Opposing red flag laws and protecting your right to self-defense.

- Reject red-flag confiscation that skips due process.
- Block federal firearm registries.
- Defend the rights of law-abiding gun owners.

11. Protecting Women's Sports

Protect fairness. Preserve opportunity. Prioritize safety.

- Defend Title IX as originally intended.
- Preserve women's sports as a competitive category for biological females.
- Protect athlete safety in contact sports.
