### **Endorsement of Dr. Mike Katz for U.S. Senate**

On behalf of the Executive Board of the College Republicans at the University of Delaware our organization proudly endorses Dr. Mike Katz for US Senate.

Dr. Katz has spent the last three decades working towards a better Delaware. From the ICU to the state legislature, Dr. Katz has served Delaware courageously with diligence - and he will continue to do the same in the United States Senate.

Dr. Katz's motto of putting "people over politics" is exactly the solution our country desperately needs in the current moment. As Washington elites continually attempt to block President Trump's common sense agenda, our nation and our state desperately need leaders that will fight for the interests of Delaware, not the interests of the political elites.

The race comes down to one motto: people over politics. A vote for Katz is a vote for "people over politics." A vote for Coons is a vote for continued domination of the lobbyist class over Delaware politics.

We need fearless leaders with experience in winning for Delaware, both within and outside the political sphere, serving our great state. Dr. Mike Katz is exactly the man to fill this role and we are grateful for his courage and leadership.

### **Endorsement of Dr. Mike Katz for U.S. Senate**

On behalf of the Executive Board of the College Republicans at the University of Delaware our organization proudly endorses Dr. Mike Katz for US Senate.

Dr. Katz has spent the last three decades working towards a better Delaware. From the ICU to the state legislature, Dr. Katz has served Delaware courageously with diligence – and he will continue to do the same in the United States Senate.

Dr. Katz will fight for the America First agenda and work, alongside President Trump, to better the livelihoods of Delawareans.

Dr. Katz's motto of putting "people over politics" is exactly the solution our country desperately needs in the current moment. As Washington elites continually attempt to block President Trump's common sense agenda, our nation and our state desperately need leaders that will fight for the interests of Delaware, not the interests of the political elites.

There are two prominent names on the ballot this November: Dr. Katz and Senator Chris Coons. Over the past fifteen years in the US Senate, Coons has failed to address the real problems facing Delaware and our country. Instead, he has taken money from loads of lobbyists and taken orders from them on the Senate floor. He is for the lobbyist class, while Dr. Katz is for us.

A vote for Katz is a vote for "people over politics." A vote for Coons is a vote for continued domination of the lobbyist class over Delaware politics.

The race comes down to one motto: people over politics. Chris Coons prioritizes the economic well-being of the lobbyist class over those of Delawareans. When voting, Dr. Katz will keep one question in mind: How does this help Delawareans? He
