**FOR IMMEDIATE RELEASE**

### **NORTHERN NEW CASTLE COUNTY REPUBLICANS ENDORSE DR. MIKE KATZ FOR U.S. SENATE**

WILMINGTON, DE — The Northern New Castle County Republican Party joins the Delaware Republican Party and all regions in officially announcing its full & total endorsement of Dr. Mike Katz for the United States Senate.

In a major effort to secure a statewide victory, the organization is calling on all 86,941 registered Republicans across New Castle County to vote for Dr. Katz in the upcoming Republican primary. Our Regional leadership emphasizes that Dr. Katz is the only Republican candidate who possesses the broad, common-sense appeal necessary to defeat incumbent Senator Chris Coons in the general election.

This regional endorsement follows Dr. Katz's historic 82% landslide victory at the Delaware Republican Party State Convention. The party is united. This victory demonstrated overwhelming support across the state and a unique ability to bring diverse factions of the party together.

Northern New Castle County Executive Committee stresses that winning statewide requires a pragmatic candidate capable of appealing to independent and moderate voters who are eager for practical, results-driven leadership.

As a physician, business owner, corporate executive, and former Delaware State Senator, Dr. Katz offers a proven track record of fiscal responsibility, government accountability, and a true understanding of the real-world issues facing Delaware families.

The path to challenging the status quo in Washington and securing a statewide victory begins with maximum engagement right here at home.

The Northern New Castle County Republican Party urges all 86,941 local party members to recognize that a successful general election depends entirely on collective participation in the September 15 Primary.

Every neighbor-to-neighbor conversation, every volunteer effort, and every single vote in the Republican primary helps build the required momentum to change Delaware's direction.
